**FOR IMMEDIATE RELEASE**

February 18, 2005

***“Medical Aesthetics only sells genuine Botox”***

Scottsdale, Ariz. — Note to all people who have been deterred from the talk of “botched” or “black market” Botox: Don't fret because it is possible to find “Good” Botox in the Valley of the Sun.

Lisa Williams, Certified Nurse Practitioner, and owner of Medical Aesthetics in Scottsdale, offers her clients genuine Botox — and is determined to educate the public about it.

“It is so important for patients

to do some consumer investigation before getting a Botox treatment,” advises Williams. I always consult with my patients before and after treatments, answering any and all questions they may have. I encourage people to ask questions. Asking who the supplier is, for example, is a common question. The informed, smart consumer is a healthier one.”

Williams only purchases Botox from pharmaceutical company Allergan, Inc. The company provides practitioners with Botox for both medical and cosmetic uses. Started in 1950, it has now become one of the world's leading

pharmaceutical firms.

“There was never a question on whether or not to use Allergan,” stated Williams. “My client's safety is non-negotiable to me.”

For more information patients can call 480-998-0333 extension 246 to make an appointment or a consultation.
